(DESC 52.246-9FO1)

I86.12.100 DELIVERY-ORDER LIMITATIONS - SCOPE OF CONTRACT (PC&S) (TURKEY) (DESC JAN 2001)

- (a) The Government agrees to purchase, during the period of this contract and in accordance with the terms of this contract, at least a quantity (or quantities) of product that, under the contract terms, will be not less than 10 % of the total original estimated contract volume for all line items awarded. The Government may satisfy this obligation by purchasing against any or all of the contract line items.
- (b) During the period of this contract it may occur that, for administrative convenience, the Government will add to this contract by contract modification additional contract line items being awarded to the Contractor pursuant to a different solicitation {of the same purchase program number}. If this occurs, then the Government's original purchase obligation under this contract shall remain unchanged and will in no way extend to the new contract line items. Instead, the Government agrees to an additional purchase obligation, namely, to purchase in accordance with the terms of the contract, during the remaining period of the contract, at least a quantity (or quantities) of any or all of the new line items that, under the contract terms, will be the minimum stated in the solicitation incorporated into the contract modification.
 - (c) Notwithstanding the provisions of the INDEFINITE QUANTITY clause --
 - (1) MINIMUM ORDER. The Contractor shall not be obligated to furnish supplies and/or services under this contract in an amount less than the minimum established in the Schedule of a single item for delivery to a single delivery point.
 - (2) MAXIMUM ORDER. Unless otherwise stated in the Schedule, the Contractor shall not be obligated to honor-
 - (i) Any order for a single item for a single delivery point in excess of **fifteen (15) percent** of the total estimated 2-year requirement;
 - (ii) Any order for a combination of items for a single delivery point in excess of **fifteen (15) percent** of the total estimated 2-year requirement; or
 - (iii) A series of orders from the same ordering office in the course of seven days that together call for quantities of items that total in excess of the limitation provided in (i) or (ii) above.
- (d) The Government is not required to order a part of any one requirement from the Contractor if that requirement exceeds the maximum order limitations in (c) above.
- (e) Notwithstanding the foregoing, the Contractor shall honor any order exceeding the maximum order limitations set forth above unless the Contractor verbally notifies the Ordering Officer within two workdays after verbal notification of an order or two workdays after receipt of a written order, followed by the return of the written orders to the ordering office, that he does not intend to make shipment of the items called for and the reasons therefore. When the Government has received this verbal notice, the Government may acquire the supplies from another source.
